I have reviewed and understand Chapter 26 of the Walworth County Code regarding Land Disturbance, Erosion Control and Storm water Management. And I will implement the erosion control plan for this project as approved by the Walworth County Land Conservation Department. I further grant the right of entry onto this property, as described above, to the designated representative of Walworth County for the purpose of inspecting and monitoring compliance with the Walworth County Code of Ordinances.

Owner or Authorized Representative: _____ **Date:** _____

I. Brief Project Narrative: describing the purpose of the land disturbing activity:

II. Attach Narrative Description, Site Plan Map, Erosion Control Plan, Storm Water Management Plan, Storm Water Calculations, and Construction Details

(Use Walworth County Land Conservation Department Checklist)

III. Project Schedule, prepare and submit a description of the construction phasing, include the approximate dates of installation of erosion control measures, utilities, roads, storm water management best management practices, and final landscaping.

IV. Attach an Inspection, Operation and Maintenance Plan of Erosion Control and Storm water Management, describe how the construction site erosion control and storm water management measures will be monitored and maintained.

V. Site Restoration, Vegetation, Landscaping Plan, describe and attach plan of the proposed seeding mixture and rate, mulching type and rate and/or any special plantings.
