

WETLAND DELINEATION REQUEST FORM

Land Use and Resource
Management Department

Wetland boundary stakings or "delineations" can be conducted by the Southeastern Wisconsin Regional Planning Commission (SEWRPC), the US Army Corps of Engineers, or qualified private consultants. The Southeastern Wisconsin Regional Planning Commission will determine wetland boundaries at no cost. **By filling out this form the applicant is requesting that Walworth County Zoning contact SEWRPC to perform the wetland delineation.**

Within one week of delineating the wetland, the boundary of the wetland must be surveyed by a registered land surveyor and drawn on a plat map of the property. **The individual who signs this form is responsible for having this survey done within one (1) week (including any costs incurred).** A copy of the survey map must be sent to the Department of Natural Resources within 10 days of the survey. The survey will be used to determine what, if any, permits or map amendments will be needed for the project. The survey map provides an accurate and permanent record, allowing the Department of Natural Resources and other government agencies to avoid restaking the area and keeps the Wisconsin Wetland Inventory as accurate as possible.
