MILWAUKEE / SULLIVAN WEATHER FORECAST OFFICE

Storm Spotter Training 2016

SKYWARN

Walworth County

Bloomfield Town Hall

N1100 Town Hall Rd, Pell Lake

Saturday, Feb 27th 9:30am

Free, 2 hours long

What is a storm spotter?

The NWS needs reports of tornadoes, flash flooding, wind damage, and hail size to effectively warn the public of inclement weather.

Storm spotter volunteers provide ground truth to what NWS meteorologists interpret on radar.

Only pre-requisites are an interest in weather and a desire to serve their community!
